5) SPLITTING CLAUSE:-

1.0 Railway decided to have more than one source of supply on account of delivery requirement in tender, past performance and capability of bidders, quantity under procurement and vital/safety nature of items.

2.0 Following provisions shall be applicable -

(a) The Purchaser reserves the right to distribute the procurable quantity on one or more of the eligible tenderers. Zone of consideration of such eligible tenderers will be the right of the Purchaser. The zone of consideration will be a dynamic mix of inter-se position of firms, supply performance of the firms, quantity being procured, critically of and lead time of supply of the item, number of established suppliers, their capacity etc.

(b) Whenever splitting of tender quantity is pre-decided, such distribution/splitting of the tendered / procurable quantity will depend (in an inverse manner) upon the differential of rates quoted by the tenderers (other aspects i.e. adequate capacity cum capability, satisfactory past performance of the tenderers, outstanding orders load for the Railway making the procurement, quoted delivery schedule vis-a-vis the delivery schedule incorporated in the tender enquiry etc. being same/similar) in the manner

detailed in the table below:

Price differential between L1 and L2	Quantity distribution ratio between L1 and L2
Up to 3%	60:40
More than 3% and up to 5%	65:35

More than 5%

At least 65% on the L1 tenderer. For the quantity to be ordered on L2 tenderer, TC/TA shall decide.

(i) In the phrase 'differential rates quoted by the tenderer', the quoted rate would mean

(1) When no price negotiation has been called for, the original rates as obtained at the time of tender opening. However, the rate of the highest eligible tenderer within the zone of consideration has to be per se reasonable.

(ii) When price negotiation has been called for, the reference L1 rate for assessment of ratio will be the original rate of L1 firm (suitable for bulk quantity) say firm "A" as obtained at the time of tender opening.

(c) If splitting of quantity is required to be done by ordering on tenderers higher than the L2 tenderer, then the quantity distribution proportion amongst the tenderers will be decided by transparent /logical/ equity based extrapolation of the model as indicated in above Para.

3.0 In cases of pre-decided splitting if the purchaser decides not to split the ordered quantity, the reason for the same should be recorded in TC minutes/acceptance in direct acceptance cases.

4.0 In the cases of inadequate capacity-cum-capability, dissatisfactory past performance, large quantity of outstanding orders (liquidation of which will take very long time) etc., the Purchaser shall have the right to distribute the procurable quantity amongst tenderer with due consideration to these constraints and in such a manner

that would ensure timely supply of material in requisite quantity to meet the needs of operation, maintenance, safety etc., of the Railways, regardless of inter-se-ranking of the tenderers and in a fair and transparent manner with due conformity to the Principles of Natural Justice and Equity.

5.0 All tenderers must submit photocopies of POs, Inspection certificate and receipt notes related to supply of the material under procurement against the orders placed on them during the preceding three years by any zonal railway/PU. The tenderers should

clearly mention their monthly capacity of supply the tendered item and the outstanding load on them against existing contracts from all zonal railway/PU/any other organization as on the date of tender opening. Tenderers are to note that non-submission of such documents shall be taken as their not having enough capacity/past performance and their offers shall be considered based on the details available with this office and no back reference in this regard will be made.
