The delivery period of quantity shall commence from the last date of original delivery order and in cases where option clause is exercised during the extended delivery period the additional time shall commence from the last date of extended delivery period. The additional delivery time shall be $(\text{Increased quantity} \div \text{Original quantity}) \times \text{Original delivery period (in days)}$, subject to minimum of 30 days. 4. **Buyer Added Bid Specific ATC**

Buyer Added text based ATC clauses

1. **Eligibility Criteria** : (a) Firms must have satisfactorily executed at least for a minimum of 20 percent of the total tender quantity to Railways/ Central / State Govt Organization / PSU / Public Listed Company for the tendered item [OR] for the items having same description, but of different sizes/ ratings/capacities during 3 previous financial years and current financial year up to date of tender opening in a one single purchase order for consideration of orders. (b) Tenderers must enclose along with their quotation, details of M&P testing facilities, QAP [if available], Technical manpower/financial status available with them and MSE/NSIC registration certificate for same/similar items. (c) Firm must enclose successfully executed PO copies, R.Note copies, CRAC details, Inspection Certificate details etc. along with their offer as a proof for performance credentials. Performance credentials will not be evaluated without any documentary evidence.

2. **SPLITTING CRITERIA:**

Railway may decide in advance to have more than one source of supply on account of delivery requirement in tender, past performance and capability of bidders, quantity under procurement and vital/safety nature of items. Following provisions shall be applicable in all such cases of pre-decided split ordering.

a. The Purchaser reserves the right to distribute the procurable quantity on one or more of the eligible tenderers. Zone of consideration of such eligible tenderers will be the right of the Purchaser. The zone of consideration will be a dynamic mix of inter-se position of firms, supply performance of the firms, quantity being procured, critically of and lead time of supply of the item, number of established suppliers, their capacity etc

b. Whenever such splitting of the procurable quantity is made, the quantity distribution will depend (in an inverse manner) upon the differential of rates quoted by the tenderers (other aspects i.e. adequate capacity-cum-capability, satisfactory past performance of the tenderers, outstanding orders load for the Railway making the procurement, quoted delivery schedule vis-a-vis the delivery schedule incorporated in the tender enquiry etc., being same/similar) in the manner detailed in the table below:

Price differential between L1 and L2	Quantity distribution ratio between L1 and L2
Up to 3%	60 : 40
More than 3% and upto 5%	65 : 35
More than 5%	At least 65% on the L1 tenderer. Quantity distribution will be decided by TC / TAA

In the phrase 'differential rates quoted by the tenderer', the quoted rate would mean:

- a. When no price negotiation has been called for, the original rates as obtained at the time of tender opening
- b. When price negotiation has been called for, the reference L1 rate for assessment of rate will be the original rate of L1 firm- say firm "A" - as obtained at the time of tender opening.
